FIELD VISITS

Cuncolim Industrial Estate

A field trip to Cuncolim Industrial Estate was organized on 25th of January 2020 for the students of SE Civil. The students were accompanied by Asst. Prof. B. R. Anirudha and Asst. Prof. Oswyn Soares. The students were taken to two sites of Cuncolim Industrial Estate area. The first site was of PET bottle factory which has completed foundation stage. The plan contains elevation of building, information of total area,

structural details of the building and its plan (top view). The plan also shows that post tensioning beams would be used to compensate on the depth of the beam as the span was large. The second site was a warehouse whose construction was completed. The area was 2100m² and height was about 10 m. 3 warehouses were separated by walls with windows for ventilation. The area above the wall was insulated by GI sheets from outside and inside puff insulation was used. The floor was fully concreted.

Saligao Garbage Treatment plant & Van Bhavan

A field trip was organized on 13th March 2020 for the Final year Civil Engineering students at Hindustan Waste Treatment Pvt, Ltd., Saligao - Goa. The field trip was coordinated by Prof. Satyesh Kakodkar & Prof. Prachi Dessai. In the morning session, the students visited the Garbage treatment plant which is operated by Hindustan Waste Treatment Private Limited (HWTPL). In the afternoon session the students visited Van Bhavan, Althino – Panjim. The building is designed as per Indian Green Building norms and registered under GRIHA.

ALCON R & D KUNDAIM

The students of second year of civil engineering were taken for field visit on 8th February 2020 to Alcon research and development centre at Kundaim Industrial Estate. Students were accompanied by faculty member Dr. Shwetha Prasanna and Prof. Maduraj Naik. This green building centre is owned by Alcon constructions (Goa) Pvt. Ltd. And they manufacture different types of pavers, kerbs, dish channel, drain covers, bricks and blocks and tiles

and slabs. They use ecofriendly material to manufacture these products.

OPA WATER TREATMENT PLANT

The students of third year civil engineering of Don Bosco College of Engineering attended a field trip at Opa Water Treatment Plant, Khandepar organized by CESA (Civil Engineering Students Association). The students were accompanied by Prof. Prachi Desai and Prof. Nadya Baracho. The students reached the spot at 10.30 a.m. Mrs. Sneha Prabhu guided the students throughout the field trip. Opa Water Treatment Plant is the first treatment plant in Goa and was

commissioned in the year 1967. The plant has capacity of treating 12 MLD (million litres per day) of fresh water. The plant gets its source from the Khandepar River.

Educational Tour at Pune for Civil Students of Don Bosco College of Engineering held

Final year Civil Engineering Students accompanied by Prof. Satyesh Kakodkar , Prof. Starina Dias , Prof. Maduraj Naik and Prof. Akshata Kudchadkar visited Central Water and Power Research Station , Military College of Engineering, Plumbing Laboratory at College of Engineering Pune and Kolte Patil Life Republic Construction site during their Educational tour to Pune.

On the first day students visited the Central Water and Power Research Station (CWPRS), Pune. It is the major research organization in the field of hydraulic and allied research as a subordinate office of the Ministry of Water resources of Government of India and deals with planning, organizing and undertaking specific research and development studies related to optimizing designs of river, coastal, water storage and conveyance hydraulic structures. It is the largest laboratory of its kind in the world devoted to water and energy resource development. In the afternoon the students visited the plumbing lab at College of Engineering, Pune where the students were explained by Mr. Pradip Jagtap about importance of plumbing for a building and models

of sanitation along with fresh and waste water piping system was demonstrated. Mr. Vaishanv Walmiki, Mr. Chetan Apte and Rahul Sakore from Indian Plumbing Association –Pune were also present.

On the 2nd day the Students visited College of Military Engineering where the students first saw 2 model buildings. In those buildings students saw various types of masonry, wall finishes, different type of arches,

plaster finishes, distemper, fireplace, different types of roofs etc. The 2 model buildings

covered the different topics covered in Building Construction and Materials subject. Students were taken to different laboratories which include Transportation, PHE, Structural Model Room and Building Material Room. The students also saw the international rowing channel. Mr. Mainak Hazra from Indian Army coordinated the visit.
